Amazon Advertising Audit

ReadyRESCUE™ — Dr. Cuddles Activated Charcoal for Dogs & Cats (B0CLMBGMS6)

Field	Value
ASIN	B0CLMBGMS6
Product	Dr. Cuddles ReadyRESCUE — 90g (3 Vials of 30g)
Price	$79.99
Category	Pet Supplies > Dog Health Supplies
Marketplace	Amazon.com (US)
Audit Date	March 6, 2026
Data Source	Public data, competitive intel, Amazon benchmarks (no Seller Central access)

Ads Readiness Score

Category	Score	Weight	Weighted
Listing Conversion Readiness	50/100	25%	12.5
Keyword Targeting Strategy	40/100	20%	8.0
Campaign Structure (est.)	35/100	20%	7.0
Creative & Brand Assets	55/100	15%	8.25
Budget & Bidding Efficiency	45/100	10%	4.5
Off-Amazon / DSP Readiness	50/100	10%	5.0

Overall Score: 45/100 (Grade: D)

1. Listing Conversion Readiness (50/100)

Ads drive traffic — the listing converts it. Before spending $1 on ads, the listing must convert.

Check	Status	Impact
Title keyword-optimized	Weak	Primary keyword buried mid-title
5 keyword-rich bullets	Weak	Copy-paste error, generic copy
7+ images with infographic	Unconfirmed	Likely insufficient
A+ / Enhanced Brand Content	Unknown	Should have comparison chart

Check	Status	Impact
Product video	Unknown	Critical for $80 product
Reviews ≥50 with ≥4.0 stars	~23 reviews, 5.0★	Too few for conversion
Price competitive	$79.99 vs $15-45	3-5x premium

Verdict: Do NOT scale ad spend until the listing is fixed. At ~23 reviews and a 3-5x price premium, every ad click is expensive and most won't convert. Estimated conversion rate: 3-5% (vs. 10% Amazon avg).

2. Keyword Targeting Strategy (40/100)

Campaign 1: Branded Defense (Exact Match)

Keyword	Match	Est. CPC	Priority
readyrescue	Exact	$0.30-0.50	Must-have
ready rescue for dogs	Exact	$0.30-0.50	Must-have
dr cuddles activated charcoal	Exact	$0.25-0.40	Must-have
readyrescue activated charcoal	Exact	$0.30-0.50	Must-have

Low CPC, high conversion. Defend branded searches from competitors.

Campaign 2: High-Intent Emergency (Exact + Phrase)

Keyword	Match	Est. CPC	Monthly Vol
activated charcoal for dogs	Exact	$1.50-2.50	12,000+
dog poisoning treatment	Exact	$1.00-1.80	5,000+
pet poison emergency kit	Phrase	$0.80-1.50	2,500+
charcoal for dogs poisoning	Exact	$1.00-1.80	3,000+
activated charcoal for cats	Exact	$0.80-1.40	2,000+
dog first aid charcoal	Phrase	$0.70-1.20	1,500+

Campaign 3: Situation-Based Panic Long-Tails (Phrase + Broad)

Keyword	Match	Est. CPC	Intent
my dog ate chocolate what do I do	Broad	$0.50-0.90	Panic search
dog ate rat poison home remedy	Phrase	$0.60-1.00	Emergency
dog ate xylitol treatment	Phrase	$0.50-0.80	Emergency
puppy ate something toxic	Broad	$0.40-0.70	Emergency
pet poison control at home	Phrase	$0.50-0.80	Emergency

Panic searches where price sensitivity drops. Gold mine for a premium emergency product.

Campaign 4: Category Conquest (Phrase)

Keyword	Match	Est. CPC
dog first aid kit	Phrase	$1.20-2.00
pet emergency kit	Phrase	$0.80-1.40
dog travel essentials	Phrase	$1.00-1.80

Lower intent, higher funnel. Use only after campaigns 1-3 are profitable.

Negative Keywords (Add Immediately):

```
human, supplement, teeth whitening, water filter, face mask, aquarium, fish tank, BBQ, grill, food grade bulk, capsules, powder free
```

3. Campaign Structure Recommendations (35/100)

Recommended 5-Campaign Architecture:

Campaign	Budget %	Ad Group Focus	Rationale
SP - Brand Defense (Exact)	10%	Branded terms	Protect brand searches
SP - Emergency High-Intent (Exact)	40%	Charcoal + poisoning terms	Core revenue driver
SP - Panic Long-Tails (Phrase/Broad)	25%	"my dog ate..." queries	Panic = low price sensitivity
SP - Category Conquest (Phrase)	15%	First aid kit, travel	Awareness / conquest
SP - Auto Campaign (Discovery)	10%	Auto-harvesting	Find new converting terms

Sponsored Brands (if Brand Registered):

Headline: "Vet-Created Pet Poison Emergency Kit — ReadyRESCUE"
Video Ad: 15-30s showing product administration (2-3x CTR vs. static)
Target: "activated charcoal for dogs", "pet first aid kit"

Sponsored Display:

Product Targeting: Target competitor ASINs ($15-20 generic charcoal gels)
Audience Retargeting: Retarget viewers who didn't purchase (critical at $80 price point)

4. Budget & Bidding Analysis (45/100)

Metric	Value
Product Price	$79.99
Est. Amazon Fee (15%)	$12.00
Est. COGS + Shipping	~$15-20
Gross Margin	~$48-53
Target ACOS	25% (= $20 max ad cost per sale)
Est. Conversion Rate	4-6% (premium product, low reviews)
Max CPC at 5% CVR	$1.00 ($20 / 20 clicks)
Recommended Daily Budget	$30-50/day to start
Monthly Ad Spend	$900-1,500

Bidding Strategy by Campaign:

Campaign	Bidding Strategy	Target ACOS	Break-Even ACOS
Brand Defense	Fixed bids, $0.40	10-15%	60-66%
Emergency High-Intent	Dynamic (down only)	20-25%	60-66%
Panic Long-Tails	Dynamic (up and down)	25-30%	60-66%

Campaign	Bidding Strategy	Target ACOS	Break-Even ACOS
Category Conquest	Dynamic (down only)	20-25%	60-66%
Auto Discovery	Dynamic (down only)	30-35%	60-66%

Break-even ACOS is high (~63%) due to good margins. Significant room to bid aggressively — but only after the listing converts.

5. Creative & Brand Assets (55/100)

Asset	Status	Recommendation
Sponsored Brands Video	Unknown	Create 15-30s demo (2-3x CTR)
Brand Store	Unknown	Create storefront with educational content
A+ Content	Unknown	Must-have before scaling ads
Amazon Posts	Unknown	Seasonal poison risk content
SB Headline	N/A	"Vet-Created Pet Poison First Aid — Works in Minutes"

6. Off-Amazon & DSP Readiness (50/100)

Amazon DSP: Not recommended yet. Requires strong CVR (≥8%), 100+ reviews, $10K+/month.

External Traffic Strategy:

Channel	Action	Priority
Google Ads	Target "my dog ate chocolate" → Amazon via Attribution	High
Meta/Instagram	Retarget drcuddles.com visitors with Amazon CTA	Medium
TikTok	Pet emergency content → drcuddles.com → Amazon	Medium
Vet Influencer	Partner with vet TikTokers/YouTubers	High

Amazon's algorithm rewards external traffic that converts. Amazon Attribution links track external → Amazon conversions and boost organic rank.

7. Competitive Ad Intelligence

The single-vial variant (B0DCLWMB4Y) appeared as a Sponsored result for "activated charcoal for dogs" — confirming ReadyRESCUE IS running Amazon PPC.

Signal	Observation
Sponsored placement	Position 12 (mid-to-far) — not winning top-of-search
Competitor density	5+ competing sponsored products on page 1
Price disadvantage	All competitors $15-45 vs. $79.99 — highest in SERP
New entrants	PawMergency, Fuzzycare launched 2025-2026 — niche getting crowded

Competitor ASINs to Target (Product Targeting Ads):

ASIN	Product	Targeting Rationale
B0DF2D3VR5	Generic 100ml Charcoal Gel	Price shoppers — show "5x more powerful"
B0FW4TN2V6	2-pack 60ml Charcoal	Budget buyers — conquest with premium positioning
B0FYL6M55D	PawMergency 2-Pack	Direct competitor — newer, less established
B0FQJJMNM9	60cc Charcoal Gel	Budget option — show vet credential advantage

Prioritized Action Plan

Critical — Before Spending on Ads

1. Fix listing first — title keywords, bullet copy-paste error, images (see SEO audit).
2. Accelerate reviews to 50+ — Amazon Vine, Request-a-Review, insert cards.
3. Create Sponsored Brands Video — 15-30s product demo, highest-ROI ad format.

High — Launch Within 1 Week

4. Set up 5-campaign structure (Brand, Emergency, Panic, Conquest, Auto).
5. Add negative keywords to prevent wasted spend on irrelevant terms.
6. Enable Sponsored Display retargeting for viewed-but-not-purchased.
7. Target competitor ASINs with product targeting campaigns.

Medium — Optimize Within 1 Month

8. Set up Amazon Attribution for external traffic tracking.
9. Launch Google Ads targeting panic search queries → Amazon.
10. Create Amazon Brand Store with educational content.
11. A/B test main image via Amazon Experiments.

Low — Scale Phase

12. Launch Amazon DSP once reviews hit 100+ and CVR hits 8%+.
13. Vet influencer partnerships for authentic social proof.
14. Amazon Posts content calendar around seasonal poison risks.
15. International expansion (Amazon.ca, .co.uk) with localized ads.

Key Metric Targets

Metric	Current (Est.)	30-Day Target	90-Day Target
Reviews	~23	50+	100+
Conversion Rate	3-5%	6-8%	8-12%
ACOS	Unknown	30%	25%
TACoS	Unknown	15%	10%
Organic Rank "activated charcoal for dogs"	Page 2+	Top 20	Top 10
Daily Ad Spend	Unknown	$30-50	$50-100

Bottom Line

ReadyRESCUE has a **strong product** (vet-created, 5x power, genuine differentiation) but a **weak Amazon presence** (low reviews, poor keyword optimization, premium pricing without adequate justification in the listing).

Do not scale ad spend until the listing converts. Every dollar spent on ads driving traffic to a poorly converting listing is wasted. Fix the listing (SEO audit items), build reviews to 50+, then scale ads aggressively — the break-even ACOS of ~63% gives enormous room to bid.

The biggest opportunity is **panic-search long-tails** ("my dog ate chocolate", "dog ate xylitol"). These buyers have zero price sensitivity — they want a solution NOW. This is where ReadyRESCUE wins despite the premium price.
